

3 Lane Articulating Decon Shelter

Purpose

The 3 Line Articulating Shelter is used for effective decontamination of both ambulatory and non-ambulatory casualties within the same compact footprint.

Features & Benefits

- Patented external articulating frame with corrosion resistant anodised aluminium
- Design facilitates rapid deployment; shelter can operate with 30% of frame missing or broken
- UV stable, fire retardant and chemical resistant fabric on Interior
- Provides durability; protects exterior frame from contaminants and expedites post-use clean up
- Stores to 1.14m³
- Space efficient for facilities with limited space
- Separates into 3 decon lines
- Enables patient privacy for male and female patients; flexibility to convert second line to non-ambulatory
- On/Off capable shower nozzles on interior fabric saturate patients with 360° of spray
- Maintains system integrity and maximises decon capability; nozzles can easily turn on or off for user's specific needs
- Four ergonomic overhead hand sprayers
- Effective in non-ambulatory decontamination
- Easily transports non-ambulatory patients down entire length of shelter
- Interior Basin contains the waste water within the wash/rinse area of the shelter

NB: Conveyors (pictured) with articulate frame and matching transfer boards are an optional extra

Technical Data

- Deployed Dimensions(m): L 6.00 x W 3.35
- Packed Dimensions(m): L 1.15 x 1.15 x 1.15
- Weight: 97.5kg
- Shelter Set Up: 3 people, 4 minutes
- Shelter Strike Down: 3 people, 5 minutes
